

1. Download online registration tool from support section on www.multi-box.net (<http://www.multi-box.net/Download/UserReg.rar>)
2. Then check that you have already installed all drivers for multi-box

3. Start the software, fill in the forms and click “submit”

The screenshot shows the 'User Registration Tool v1.0' window. On the left is a terminal window with the following text:

```
Ready...
Multi-Box - (c)2005 DELOK Research lab. -
www.multi-box.net
Box SN: 00000 HW ver:1.0 Last update
on: 23.05.2005-08:49
Box FW version: 1.0.0 FW compilation date:
03.05.2005
Card ID: MultiBOX Card v1.0
Card SN: Card FW version: 1.0.0
===== Reseller Info =====
Name: -, -
Web: -
E-Mail: - Phone/ICQ: -
No user info stored (box not registered)
Box status: OK
```

At the bottom of the terminal window, it says '0%'. To the right of the terminal is the registration form:

Multi-Box

Search Now Port: COM12

User ID

Submit

4. All done. Check your mailbox. You are to receive the e-mail with your personal data (login and password for access to support area)

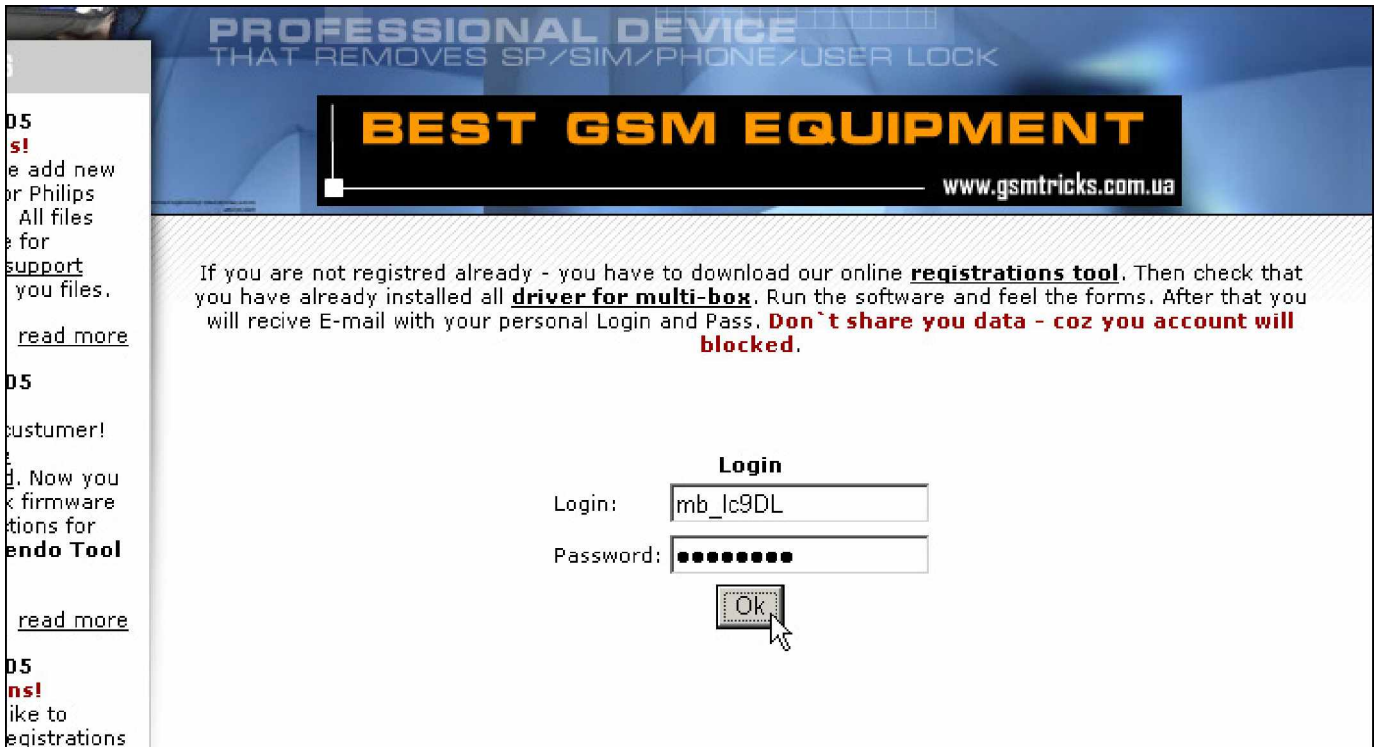

The screenshot shows the 'User Registration Tool v1.0' window after registration. The terminal window now displays:

```
Ready...
Multi-Box - (c)2005 DELOK Research lab. -
www.multi-box.net
Box SN: 00000 HW ver:1.0 Last update
on: 23.05.2005-08:49
Box FW version: 1.0.0 FW compilation date:
03.05.2005
Card ID: MultiBOX Card v1.0
Card SN: Card FW version: 1.0.0
===== Reseller Info =====
Name: -, -
Web: -
E-Mail: - Phone/ICQ: -
No user info stored (box not registered)
Box status: OK
Connecting to MultiBox server...OK
Registration completed. Check your mailbox
```

At the bottom of the terminal window, it says '0%'. The registration form on the right is identical to the previous screenshot, but the 'Submit' button is no longer visible, indicating the process is complete.

5. Go to support section on www.multi-box.net and check your login and password

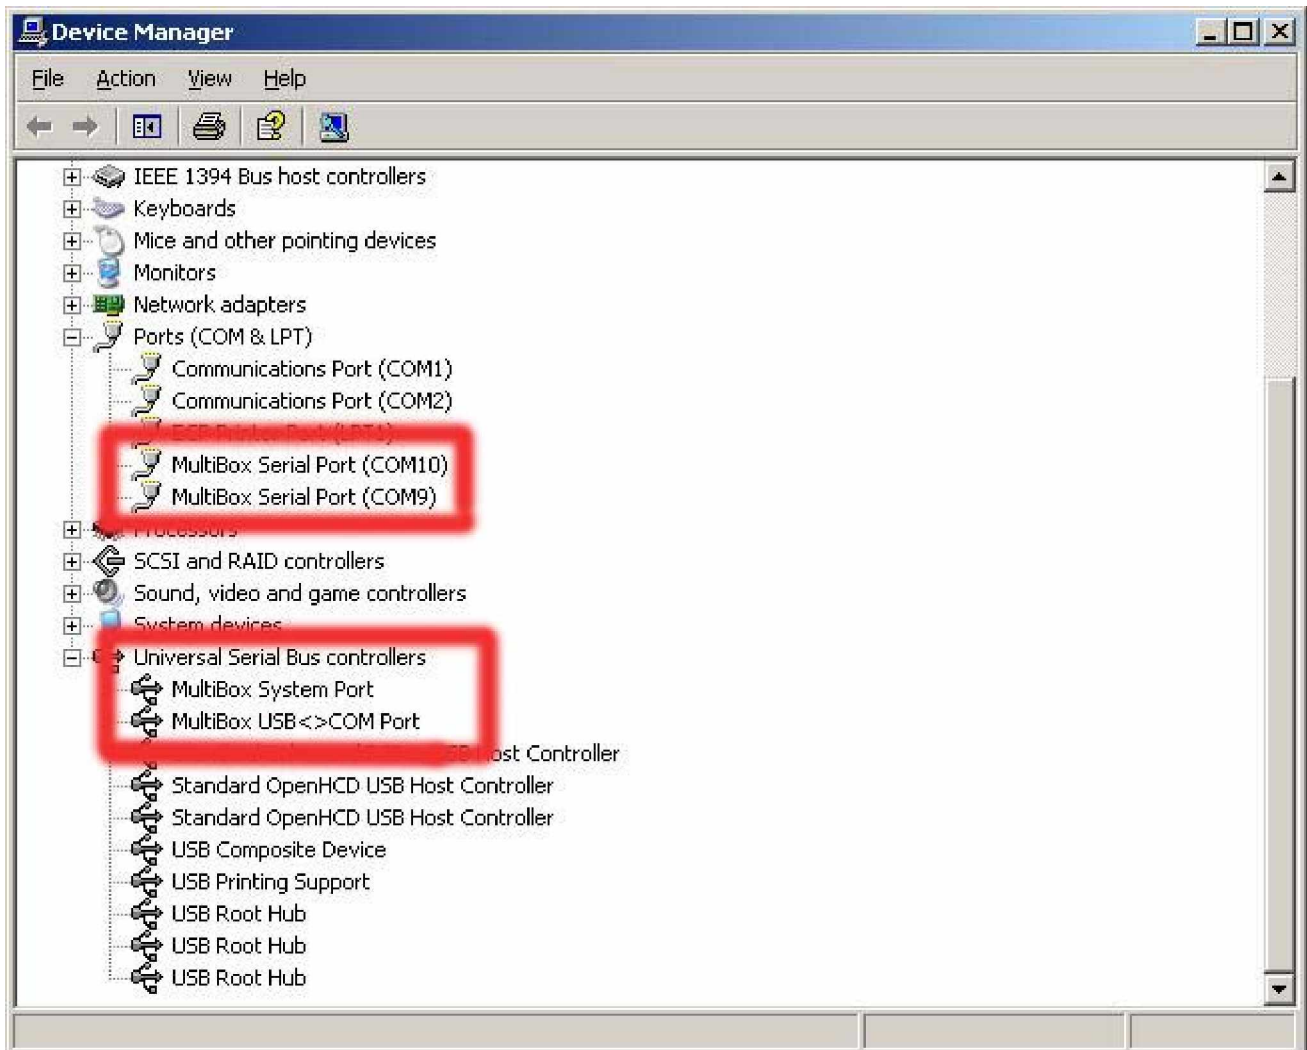

6. If you have any problems – read FAQ.

F.A.Q.

Q: "No Box Detected! Please check connections and try again."

A: Check connection of USB cable to Multi-box and correctness of installed drivers.

Q: "Connecting to MultiBox server...Error!"

A: Check your Internet connection. You need to set or even disable Firewall on your computer or your LAN. Close anti-virus program.

Q: I have forgotten login/password to Support page. How to restore it?

A: Please run registration tool again. Enter correct e-mail address, which you specified during the first registration and click "submit". Check your e-mail box.

Q: I have a problem with registration. No answer in this FAQ.

A: You may write us the application by e-mail to reg@multi-box.net. You must specify in your application:

- Your reseller
- Box SN
- E-mail address which you have specified in registration form
- The detailed description of your problem

Take into consideration: your application will not be considered, if you don't specify one of above-mentioned items!
